

“Thank you for our beautiful, sweet baby. He is quite a joy.

Thanks to the donor and your staff who recommended him.

Our family is now complete.”

FOR THOSE CONSIDERING DONOR SPERM...

Our goal is to provide you helpful information as you research your options with donor insemination. We want you to be confident about your choice. Cryogenic Laboratories, Inc. (CLI) has 40 years experience helping thousands of people create happy families. We wish you much success and thank you for considering CLI.

WHY CHOOSE CLI?

- CLI is the first Sperm Bank in the US
- Exceptional specimen quality offered at economical prices
- Anonymous and ID Option donors with diverse backgrounds
- All donor information is FREE on website download
- 24/7 tank monitoring assures specimen quality
- Compare CLI to other sperm banks at cryolab.com/comparison

CLI HAS CREDENTIALS YOU CAN COUNT ON

- AATB (*American Association of Tissue Banks*) accredited
- Fully compliant with FDA regulations
- Licensed to ship to all 50 states and internationally
- CLIA certified by the Department of Health and Human Services
- Accredited by the Better Business Bureau (*BBB*)

JUST 3 EASY STEPS...

- (1) Select a sperm donor using our online Donor Search www.cryolab.com
- (2) Confirm with your doctor's office that they have an account with us and when the specimens need to be there.
- (3) Complete the Terms of Use form and call our offices at (800) 466-2796 to place your order for donor sperm.

SPECIAL FEATURES

- Purchase and store additional vials for future siblings
- Ship to your doctor's office or home (with physician's written consent)
- Limits on donor pregnancies are in place
- Connect, share and get updates at CLI Family Forums online
- Check your donor's medical status online anytime

FINDING YOUR DONOR MATCH

Our online Donor Search is user friendly and fun. You can use criteria that matter to you to select from our list of over 100 donors. You can choose from three categories of donors: Anonymous, Identity Option (ID) or our lower priced Value category. All donor categories have extensive medical and personal information available. ID Option donors allow your child, with a registered birth, the option to obtain the donor's contact information from CLI when they reach the age of 18.

You can start your search with basic criteria:

- Height, weight, eye and hair color
- Blood type
- Ancestry (Caucasian, African American, etc.)

You can then move on to more advanced criteria:

- Ethnicity and skin tone
- Availability of lifetime (adult) photos

You can finalize your search using our lifestyle search:

- Favorite subject in school
- Astrological sign
- Religion
- Personal goals
- Talents and hobbies

Individual donors have significant information that is available for FREE download: childhood photo, medical profile, personal profile, staff impression, audio clips from the donors and from our staff about the donors, full audio interviews, and donor essays. For a fee, many of our donors have adult photos and personality testing results for you to review.

DONOR SCREENING

Donor medical screening at Cryogenic Laboratories is our highest priority. All donors are healthy men with family histories that have been reviewed by our genetics staff. Extensive genetic and infectious disease testing follows strict FDA guidelines. Our staff will gladly address specific testing concerns you may have.

DONOR TESTING INCLUDES THE FOLLOWING:

Semen Evaluation

ABO Blood typing

Infectious Disease Testing

**FDA required testing. Please note we do more than is required.*

- Neisseria gonorrhoea *
- Hepatitis B Surface Antigen *
- Hepatitis B Core Antibody *
- Hepatitis C Viral Antibody *
- Cytomegalovirus (CMV) *
- Syphilis *
- Chlamydia *
- HIV-1 and HIV-2 antibody *
- HIV-1* and HIV-2 by NAT
- HTLV-1 and HTLV-2 antibody *
- HCV by NAT *
- HTLV-1 and HTLV-2 by NAT
- HSV-1 and HSV-2 (Herpes) by NAT
- HPV (Human Papillomavirus) by NAT

GENETIC DISEASE TESTING

- Chromosome Analysis (karyotype)
- Cystic Fibrosis
- Ashkenazi Jewish Ancestry—Tay Sachs, Gaucher, Canavans at a minimum
- French Canadian Ancestry—Tay Sachs
- Asian, Middle Eastern or Mediterranean—Thalassemia
- African, Black American—Sickle Cell and other hemoglobinopathies
- Spinal Muscular Atrophy on all new donors as of 6/08
- Tay Sachs Disease on all Irish donors as of 6/08

Testing may vary by donor and is listed on their summary or medical profiles.

OUR QUALITY STANDARD

We stand behind our specimen quality standard. The counts (TMC= total motile cells) for each specimen type are: IUI (washed) have 10 million TMC/vial, ICI (unwashed) have 18 million TMC/vial and IVF have 5 million TMC/vial.

Visit our website at www.cryolab.com to get started. If you still have questions, please call us at (800) 466-2796.

We wish you well on your journey to parenthood.
